

Ahmed Mohsin Nazir

FA24-BCS-143

Lab Task 01

Statement: Before you design your own CV in Assignment 1, practice the raw skeleton: build a semantic HTML5 skeleton (no styling required) for a generic e-commerce homepage — correct `<header>`, `<nav>` with at least 4 links, a `<main>` containing three `<section>`s (featured products, categories, newsletter signup), and a `<footer>` with at least three columns of links. Validate your HTML with the W3C Validator and include a screenshot of a clean validation result in your completion PDF.
